

AN INTERPROFESSIONAL MAP OF PATIENT SAFETY COMPETENCIES

"Interprofessional Education (IPE) occurs when two or more professions learn with, from and about each other to improve collaboration and the quality of care" **CAIPE 2002**

Patient Safety competencies mapped in collaboration with experts in the field, clinical skills experts, different H&SC professions & service users across Yorkshire

Workplace learning – optimum for IPE (Hammick et al 2007)

Based on human factors to guide & support undergraduate health & social care students

“Those who work together should train together”
(UK Parliamentary Select Committee 2009)
(paragraph 196)

“Learning is the process whereby knowledge is created through the transformation of experience” (Kolb 1984)

The Future?

- . Students and tutors to use the maps
- . For reflection & For learning
- . To implement in practice
- . Further enhance and embed IPE

Available;

- . on the website
- . as a free iPhone app
- . in mobile format
- . in a printable version
