[HTTP://WWW.HUD.AC.UK/HHS/MICHAELS-STORY/](http://www.hud.ac.uk/hhs/michaels-story/)

# WHAT WE HOPED TO GET FROM THE PRODUCTION OF THE RESOURCE:

- To help in meeting the health needs of people with learning disabilities. To tell Michael's story and help others to learn from it.
- To make the story accessible to a wider audience
- To show how the principles of the MCA work in practice. Best practice, person centred approaches, reasonable adjustments- make it real! Promote real understanding of the issues.
- Promote the needs of people with learning disabilities and learning disability nursing. Highlighting the need for collaborative working.

# NOW WHAT?

- Promotion of the resource within all fields of nursing and for other health professionals.
- Use of the resource in teaching.
- Continue to promote the needs of people with learning disabilities, keeping abreast of current issues in the learning disability field, and on to the next project!
