SUCCESS Group

Supporting the student journey – a whole Faculty approach

Roy Doré , Hilary Jones, Sara Gorman,
Tony Wilson, Kanta Sandhu.

The SUCCESS Group

We are involved on all 4 campuses of the Faculty (Walsall, City, Burton and Telford)

You are never more than 6 feet away from a SUCCESS Group member in this faculty

So what...?

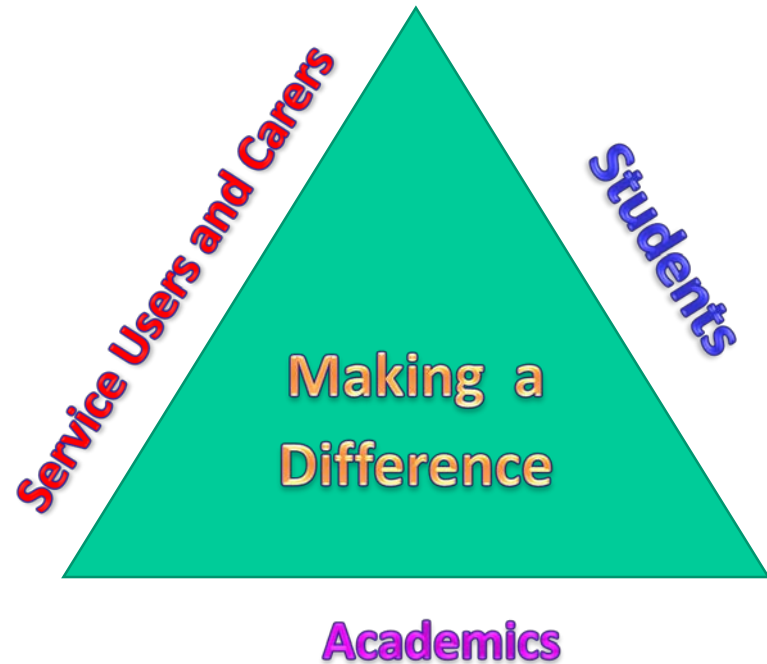

- We can see the difference we make, it happens in front of us
- Outcome evidence is recorded, gathered and distributed by our coordinators
- SU/C's are benefiting from the student learning experience
- There is, without doubt, personal development for SUCCESS group members
- Sometimes things could be better and we recognise that
- We are continually learning from our involvement

Further thoughts...

- What are the essential ingredients?
- All you need is.... (love?)
- Just a bunch of folk who refuse to be a tick in the box and are willing to talk about their experiences to help bring about change
- A good platform for them to work on
- Don't polish your rough diamonds

And finally...

- Network with us in the breaks we love talking about our **SUCCESS** and the eternal triangle!

- We're happy to discuss consultancy commissions!!

Thank you
any questions please....?
